📍 Houston, TX

SKILLS

Programming Languages

JavaScript Java HTML

CSS

Frameworks & Libraries

Express.js Node.js

React.js

Databases & Technologies

MongoDB Git Github

PROJECTS

DevConnector - MERN Stack

📅 11/2023 - Present

Designed and implemented a full-stack social network app using React, Redux, Node.js, Express and MongoDB. Integrated JWT authentication, React Hooks and deployed on Heroku with a postbuild script.

Task Tracker - React.Js

📅 11/2023 - 11/2023

As a part of my ongoing pursuit of innovative web development solutions, I created a task tracker app in React. Showcasing my skills in components, props, state, hooks and API integration. Designed for efficient task management with user-friendly interface.

Weather App - Vanilla Js

📅 03/2023 - 04/2023

My weather app is an innovative tool that leverages geolocation to provide localized weather forecasts with the utmost accuracy. It incorporates data structures like loops, functions, arrays and conditional statements to enhance its functionality. With its maps features, users can also explore current weather conditions around the world.

EXPERIENCE

Helpdesk IT Support

The Home Depot

📅 02/2024 - Present

- Document interactions, diagnose issues, and communicate feedback to relevant departments using ServiceNow
- Provide timely and professional responses to customer inquiries
- Demonstrate excellent problem solving skills to help assist customers with product inquiries and troubleshooting

Technical Support Specialist - Houston Independent School District (HISD)

Houston ISD

📅 07/2023 - 02/2024

- Conducted hardware troubleshooting generated tickets and reimaged devices ensuring smooth operations across 250+ campuses
- Optimized technology asset management with a JavaScript script, boosting inventory efficiency by 20%
- Managed equipment inventory and service requests optimizing resource allocation and improving efficiency

EDUCATION

Associate of Science, Computer Science

San Jacinto College

📅 08/2022

Bachelor of Science, Computer Science

Lamar University

📅 06/2023

VOLUNTEERING

Alumni Chair

National Society of Black Engineers

📅 2019 - 2020

Leadership at NSBE enhanced teamwork, communication and organization skills, bolstering my ability to excel in software development environments

Member

International Dean's List Society

📅 2017 - 2022

The International Dean's List Society membership showcases dedication and commitment, which enhanced my teamwork and communication skills.
